

## SigGem Color 5.7

# T-LBK57GC

The Topaz® SigGem® Color 5.7 is Topaz's largest, rugged, and advanced biometric electronic signature pad with a 5.7 inch, full-color TFT VGA (640x480) LCD that captures and displays "electronic ink" under the pen tip for a natural signature.

The large signing area and rugged signing surface make this a versatile pad for the most demanding applications.

Bundled secure software APIs provide for interactive text, graphics, and pen-tap hotspots and checkboxes which enable users to navigate screens, read agreements, and select preferred options before signing.

The SigGem Color 5.7 shows the signature on the signature pad, as well as the computer screen.
